# ORACLE® Applications Unlimited

## Oracle Applications Unlimited and Oracle Premier Support—an Unbeatable Combination

Applications Unlimited is Oracle's commitment to continuous innovation while also providing a commitment to offer Oracle Premier Support through at least 2030.

### COMMITTED TO CUSTOMERS

Oracle has been a trusted business partner for over 40 years. We help enable customers to confidently maximize and expand their existing Oracle Application investments, with ample time for future planning, based on Oracle's commitment to support its existing applications via a stable and predictable long-term support policy, designed to meet the needs of our customers.

### COMMITTED TO INNOVATION

Oracle has a long history of innovation and plans to continue product investment for improvement and support going forward with continuous innovation releases. Oracle will deliver new functionality to covered Oracle Applications<sup>1</sup> as updates to the existing release, and upgrades will not be required to gain access to new features and capabilities. Fixes and updates are cumulative and will be available to all customers in the most current release. In addition to running your applications on premises, you can choose Oracle Cloud Infrastructure (IaaS) to run the same continuous innovation applications—with your business-specific customizations—when it meets your needs.

#### Commitment to Customers

- Oracle Premier Support through at least 2030

#### Commitment to Innovation

- Receive ongoing new features
- Run same application on premises or in Oracle Cloud Infrastructure (IaaS)

#### Commitment to Product

- Transparent product roadmap
- Ongoing R&D investment

#### Key Benefits

- Gain peace of mind with no surprises
- New features without upgrades
